Services

Llewelyn-Davies Sahni, Inc.

Llewelyn-Davies Sahni, Inc. (LDS) is an award-winning Houston-based firm with extensive planning, urban design, architecture, interior architecture and development advisory experience. The firm, and its predecessor, has been in business for 31 years in Houston and 40 years in the United States, providing services throughout the US and overseas. LDS has been instrumental in a number of high profile landmark developments. We credit this success to resourcefulness, professionalism, vision, comprehensive solutions and client satisfaction.

LDS offers full architectural services for a wide array of project types. Our involvement in a broad range of architectural services allows us to constantly evaluate, challenge, adjust and confirm concepts and standards typically utilized in planning and design projects. From conceptual design to schematic design to design development, the product is a design that is responsive to the needs of the users, current with technology and flexible toward change.

LDS brings together teams of planning and development professionals to focus on a wide range of urban growth issues in individual developments as well as small, medium and large cities. The firm, which is certified as an MBE and HUB, serves as both a prime consultant leading and managing multidisciplinary efforts and as a subconsultant.

LDS' uniqueness is founded on our use of the programming process to deliver results - not just deal with the abstract.

Building programs require greater management discipline, as well as procedures and processes which control costs and scheduling, without stifling creativity or quality.

Services include the following:

- Strategic Planning
- Development Advisory
- Urban Planning and Design
- Architectural Programming, Planning and Design
- Interior Design
- Urban Revitalization
- Design Management
- Public Participation Management and Facilitation
- Visualization
- Construction Administration
